

ECE 411
Fall 2019
Homework 2
Requirements Document
(Team Assignment)

Create a requirements document (or PDS – product design specification) for your term practicum project. Use the criteria and cover the topics discussed in class and the text. You will be graded according to the requirements document rubric found on the Forms page of the PSU ECE Capstone web site (www.ece.pdx.edu/~faustm/capstone).

Be sure to post your requirements document to your team's project wiki and upload it to D2L (as PDF).
